Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Fluido Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase se ha tenido cesion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los aceites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

PORT CAPTAIN'S REPORT.

The Report for the year 1879 of Mr. C. Mansilla, Port Captain-General, has just made its appearance, in the shape of a bulky pamphlet of 404 pages. Of course, the book is not as readable as 'Endymion,' Lord Beaconsfield's last novel, nor as instructively amusing as the 'Progress of the World,' by our brother-editor; nevertheless, it has points and chapters, figures and facts, that must necessarily interest those connected with our mercantile marine. Old Admiral Brown, could he lift the coffin lid and turn over the pages before us, would be astonished that a service so small in his time, and a department so wretched, could, in the cycle of a single generation, grow to an importance that this book before us tells of. Yet so it is with almost everything in this country; things are more than what they seem here than in any other land. The sheepfarmer who strolls through our streets may be a two thousand a year man, although his outward show is more the cut of a hard-up editor; the 'changador' that stands at the street corner keeps a bank-book in the pocket of his shirt, and the grim old Capitania, with its bewizzened-looking sentry and farthing-candle office appearance, is the head-quarters of a department whose agents and officers stretch from the tropical 'resguardos' of the Alta Parana and Uruguay to the untrodden wilds of Santa Cruz and the eternal snow-sheds of the South Pole. That a branch of Government so large and spreading should be domiciled in six small rooms, with but three head clerks, whose aggregate means of existence reaches but 170 fuertes per month, we must leave Mr. Mansilla himself to explain, since, to our reading so great an economy in so vast and important a service is but one of those great errors that exist under the patronage of a false name and culminate in abuses that alike discredit the administration and the country's fame.

Mr. Mansilla himself says:—"The Capitania, which formerly was well and conveniently organized, and with a sufficient staff of clerks distributed in various offices, is to-day reduced by the 'presupuesto' to the smallest span with the most wretched salaries." We cannot follow our Port Captain in his very just lamentations, but, suffice it to say, that a service so important as that of the Capitania cannot be attended to by two or three overworked clerks who, with the Port Captain, seem to be pulling all the year round with one oar and against the current.

Of course, it is hardly fair to measure the maritime power of the Republic by the facts in the book before us, yet there are some chapters that create misgivings. For instance, so far back as November 1879, a Register was opened to enrol Argentine sailors, yet to this hour only 100 are entered. Such figures give little consolation to those who dream of organizing an Argentine marine to manage our coastwise trade. We are evidently deficient in the stuff that makes sailors. The Correntinos have hitherto enjoy some little prestige in the line, but from one cause or other they do not figure so numerously as formerly. Seven-eighths of the Correntino river trade is in the hands of the Italian, and as the last news from Corrientes is that the Government has given 80 square leagues to start sugar plantations, it is possible that the few Correntinos at present afloat will give up the river in toto and take to the cane. Neither has the Bounty Law, passed in April 1879, been very successful in enrolling sailors, since the Port Captain admits that notwithstanding the bounty offered only 254 took it and joined the service. If we want sailors, we must breed and rear them. The whole stretch of our South Atlantic coast is a howling wilderness, yet many have worn their boots out going to the Government House seeking permission to start little fishing towns and settlements at many points on the coast where fishing would pay, better than flax-growing or sheepfarming. At this moment there is a petition before the Government to start a fishing town at Port Nimfa. But will it be granted? In fact as things go, and as matters time affairs are managed, according to Mr. Mansilla's book, our only hope in the sailor line rests with the Welshmen at Chubut, whose hardy offspring, accustomed to the coast, may yet give us a few sailors down there, and mayhap another Brown.

It may interest many to know that the Port Captain of B. Ayres reports 68,298 vessels entered, with 189,392 passengers, in the year 1878, against 68,995 vessels and 222,794 passengers in 1879. Here we find a falling off in the number of vessels of 303 ships, whilst there is an increase of 33,402 passengers. There are 1,990 vessels of every build registered as Argentine, with 28,635 tons. These are, indeed, small figures for a nation such as this, with such navigable rivers and splendid seacoast.

The reports of the various Port Captains at Rosario, Concordia and other ports, cannot fail to form chapters of much interest to the merchants and others of the localities: beyond recommending the book to their attention we cannot pass. The Rosario Port Captain calls attention to the inexhaustible fertility of the fine high islands in front of that town, and which are in the hands of vagabond tribes of 'gauchos,' who have changed the horse for the canoe, and live on the depredations they commit on the mainland, escaping with the booty to the fastnesses of their island homes, where all efforts at their capture have always failed. The Concordia Port Captain treats on the dilapidated and unfinished condition of the moles, with the exception of the railway mole, which does all the business of the port. The Gualeguay mole is in a state too desperate to dwell on, and in these and a few other items the reader will find ample subjects to guide him in discovering the effeteness of our Capitanias, and the unmethodized condition of our executive marine.

Port Captain Mansilla, if he cannot reform the defects and shortcomings of his department, has at least rendered good service by grouping them in his report, which secures publicity. In every public department in this country, the least change that can be termed improvement involves an up-hill work that few stop to consider. Let the official who holds up to public gaze these errors and abuses that reflect on the administration of which he forms a member act well his part and extricate himself from responsibilities that even an Epaminondas might shirk.

MONTEVIDEO

Dear *Standard*

It services and merit entitle a man to the esteem and gratitude of his countrymen, Colonel Santos, of all Orientals, can lay the greatest claim to popular suffrage. Individual merit, like literary fame, is open to much abuse in the Banda Oriental, and party spirit blinds the contending elements more here than anywhere else. It might be useless to recapitulate the experiences of last year's events on your side of the river to prove the errors of politicians who would plunge the country into the horrors of civil war and risk the hazard of the die rather than give in. At that period no word was spared to cast contempt and abuse on the man who to-day sits in your Presidential Chair, and has proved himself so vastly superior to his sinbborn antagonists; his merit and his services to the country raised him to his present position, and these were qualities the opposing party could not pardon. Colonel Santos is running through the same quick-fire of slander and animosity, and perhaps he ignores that the very fact is most complimentary to his talents.

On the 12th and 13th of March, dates yet fresh in the memory of all, when the country stood on the brink of an abyss and the warmest patriots saw no hopes left, the man who came forward and saved us, in spite of ourselves, perhaps, from anarchy, was this very Colonel Santos, who excites so many fears at the present moment, through his half-reticent and half-ambiguous conduct. Such a long time has elapsed since then—11 month I think, that the blancos and constitucionales have completely forgotten the event and its results: their memory is short-lived when recording the merits of

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsification

antagonists, who may claim support from the past and anticipate it in the future. It would be really an idle task to anticipate for one moment that logic and common sense would influence the Blancos or Constitucionales any more than your peace meetings did the course of events previous to June. There is some fatality linked to R. Plate Politicians; they evidently do not know the difference between right and wrong, which is a most singular coincidence, as the men who get up the revolutions are lawyers, and these are the men who are supposed to know what is right and what is wrong; no doubt, they have arrived at such a climax of duplicity and loose judgment that their brains become obfuscated and lean more to the wrong than to the right side. Talent stamps the men at the head of the present political parties, and I hope that this talent will save them from extreme measures; it requires so very little talent to ruin a country or a woman's reputation, but it needs nearly a genius to make amends and reconstruct what has been destroyed. The remington makes a revolution and decides a battle, but it requires something more to push the Banda Oriental into a right groove and undertake the ungrateful task of raising the prospects that have been ruined by a stubborn and armed resistance. Let the present political headers well meditate the events last year in the Argentine Republic. We cannot afford a Corrales; we have not a Rio Negro territory and 5,000 immigrants a month to fall back on; a revolution at the present moment would simply be the drop-scene of the long tragedy of the last fifty bloody years. Let there be no opposition outside the arguments of the newspaper columns and the club rooms, otherwise all well wishers of the country may sigh 'Spes et fortuna valete.'

Voltaire.

EDITOR'S TABLE.

The French mail steamer Gironde entered Montevideo yesterday, and her mails come up this morning in the Jupiter. Her dates are to 23rd ult. The British troops at the Cape have driven the Basutos from all their positions, and with very little loss. A far more formidable body than the Nihilists has arisen in Russia. The storms in England have been so dreadful that the steamers dared not leave their ports. The number of shipwrecks was extraordinary, with appalling loss of life. All England is covered with snow, and the railways stopped. Nothing like it ever experienced before. Coal rising owing to the strikes. Belgium and Holland are almost covered with water, and frightful losses. Strike in Manchester over.

The Royal Mail steamer Elbe sails to-day, and for the first time in the history of this country, it exports peaches, 8 tons of which go to Rio in the Elbe. It is almost as remarkable a beginning, although a smaller one than Captain Brisbane's 13,000 wheat bags. We might export hundreds of thousands of tons of preserved peaches and other fruits to Europe as they do from N. York, but there is a lazy strain in the Plate that has cost us millions, and will yet cost us more. However, let us hope that these 8 tons of peaches to Rio are the beginning of a large export trade in fruit.

The funeral of Dr Kelly took place on Sunday at Flores, and was very largely attended, not only by his immediate circle of friends in that suburb, but by distinguished members of his profession in town, who regret his loss. The deceased gentleman had been suffering for a long time from consumption, which was followed by paralysis, produced, it is thought, by too severe application to the studies of his profession, of which he promised to be so bright an ornament. He died almost in the morning of life, leaving a widow to mourn his loss. Some of the most prominent families in town are thrown into mourning, and we tender to his bereaved widow every expression of sympathy at her early sorrow. Over the grave Dean Monsignor Dillon and Sr Romero made beautiful orations.

The heat on Sunday, although extreme, was not able to check the outflow to the Tigre, where several gay parties spent the day in boats amongst the Islands. Mr Knight entertained his friends on board his beautiful yacht, moored near the boat-house. This distinguished tourist, with a party of friends, leaves for Rosario, as we have already announced, where they take horses to ride over the country to Tucuman. Argentines are accustomed to say that only Ingleses would attempt such an exploit; in the present case the proverb does not hold good, as Frenchmen are of the party. The Tankerville Lords at the Retreat, a little, bushy, rosy, diametic cottage on the Conchas, just above Sta. Teresa, held a high breakfast party, at which many of our Bolsa magnates were guests. Everything that can add charm to summer life is to be found in this delicious Tigre Sans Souci: the fish, the fruit and the flowers were the spoils of the morning's excursion through the Islands; and the dulcet strains of the guitar, the flute, and the banjo, wafted through the leafy foliage, completed a picture which only on a fine summer morning in the Tigre can be caught. Madame Calzetta's Island was taxed to its utmost, and the little steamer was insufficient to carry all the guests. The Island during the present month is more delightful than at any other period of the year. Beneath the trees which shade the arroyo that meanders through the land, the breakfast table is spread; all the trees are weighed down with fruit; the charges are as moderate as the 'cuisine' is excellent, and in fact, so long as we have such a delightful spot to run out to these hot summer mornings, business, politics and institutions are safe. Fancy can hardly discover a more beauteous isle in the Tempe Argentina than this Calzetta Island Restaurant. The Venetian 'paseo' on Saturday night was a beautiful novelty. Some forty or fifty boats, gorgeously decked out with flags, evergreens and Chinese lights, arrived at the Tigre mole at about 8 p.m., where the numerous families invited soon crowded into and filled up all the boats, from whence the flotilla proceeded to the San Fernando canal, where a sumptuous spread awaited them. The beautiful moonlight night, the strains of sweet music, rockets and blue lights, combined with the mirth and laughter of some hundred lovely young ladies, made up a scene, en route, on the placid waters of the Lujan which quite baffles description. Great praise is due to our friend Mr Madariaga (son of the illustrious General), second in command of the Republica, for being the promoter of this new class of pasees, which he got up entirely at his own expense. He promises that the next one will be much better, and will take place at Calzetta's Island, probably finishing off with a hop. Fruit at Madame Calzetta's Island is selling at $20 m|c. per basket, picked fruit and including basket.

The heat yesterday was truly excessive, and greater than anybody weighing over 9 stone could bear with patience. 'Oh, that this too solid flesh would melt' was an unnecessary wish. Most people were melting away visibly before their dearest friends' eyes. There was a full moon at half past two o'clock in the morning, and from this many people expect rain soon. It is badly required. The camps are as dry as tinder in all parts, and several fires are reported. On Saturday evening those in the outward bound tram cars to Flores and Almagro saw the glare of a conflagration to the westward.

The French Saint Cloud fete was most brilliantly inaugurated on Sunday in spite of the very hot weather. The attendance was very large and fashionable including President Roca and his War Minister, Gen. Levalle, and other notables. The fete will last throughout the week. The 'Special St Cloud edition' published yesterday morning by our enterprising colleague *L'Union Francaise* reflects the highest credit on it, being beautifully illustrated and printed. The variety of games for little and big people at this fete is remarkable, one of the most amusing being an 'Aunt Sally' in which the members of the Committee in effigy form the targets. There was only one game prohibited—the 'pomito', which shows that this silly and now dangerous nuisance has been banished from our good French society.

The *Times* of January 1st announces the death of Mrs Fleming, widow of the late Sir Buckley Mathews. The deceased lady had only been married to Captain Fleming about a month.

We have most serious complaints from a Parana subscriber about the irregularity of the Post Office: Two letters addressed by her to us lately were never received in Printing House Square, and scores of numbers of the *Graphic*, *Illustrated News*, *Punch*, &c., to say nothing of letters, to her from England never reached her. It would be the acme of absurdity and 'cinismo' to imagine that this could possibly have been the fault of such a perfect institution as the British Post Office, so the 'lapsus' evidently lies somewhere between Plaza 25 de Mayo and Parana, and we hope the P.M G. will take the hint. The weather is awfully hot up there and the place as dull as it can be. There has been a good deal of rain. The locusts are gobbling up all before them, but the people look on with Mussulman apathy and make no effort like the Roldan men, to exterminate the plague. Carnival is already in full swing, and last week five young gentlemen in their teens gave a charitable dramatic performance, the receipts from which, it was confidently anticipated, would certainly cover half the cost of the candles required to illuminate the theatre, as gas is a luxury as yet totally unknown in Parana.

Sir Horace Rumbold Bart, H.M. Minister Plenipotentiary and Envoy Extraordinary, has just received, for presentation to President Roca, a letter from Her Majesty the Queen, congratulating the General on his elevation to the First Magistracy of the Republic. Also another announcing the birth of a son to the Duke of Cumberland. The Emperor of Austria has also written to General Roca, with his own hand, envelope and all.

The news from Chile is rather serious. The Araucanian Indians have risen in such numbers that the Santiago Government has sent 3000 men to put them down. Nothing fresh from Lima. Pierola is at Cattacan with a few thousand men.

The Italians in Montevideo had a grand funeral Mass celebrated in the Matriz on Friday last for their countrymen who fell at the recent battles of Chorillos and Miraflores. The Italians in Buenos Aires will probably do likewise.

A London colleague refers to a threatening letter lately received by an Irish landlord: It stated explicitly that he would be shot on a certain day, but at foot was the following postcript—'We'll do nothing to annoy your good wife.'

Mr John Dillon junr. has been named Treasurer-Accountant of the Western Railway, vice Brunel who has retired.

The 'paisanos' along the Central Argentine and North Central railways have hit on a new pastime—firing volleys of stones at the trains as they pass. Last week, near Villa Maria, several passengers got black eyes and cut heads in this way. In England they flog for this dastardly offence; but, South of the Equator, the 'dignity' of man forbids such a punishment, and more's the pity.

Esmeralda Cervantes, the great harpist, arrived on Sunday from Montevideo. We feel pleasure in welcoming her back to Buenos Aires. She is stopping at the Hotel de la Paix, No. 4.

It is whispered in naval circles that the Argentine squadron is to be increased by four new steel corvettes of very high speed, on the model of the best in the British navy.

There is queer news from Baradero where the Locusts settled down last week on 3½ leagues of camp. They had hardly pitched their tents and sat down to breakfast when about 300 storks, leading an army of white gulls, fell on the invaders and began to devour them, despatching millions of them in a few hours. The arrival of this winged salvation army is due to the fact that the 'banados' and islands are all inundated, owing to the overflowing of the Parana.

The Gower-Bell loud speaking Telephone was put into operation yesterday between the President's Quinta and the Government House, a distance of about four miles, and worked to the astonishment of all present. The President congratulated Mr Manton upon the perfect success of the machine. It is the instrument adopted by the French and English Governments,

The Lord Mayor has taken up the 'pomito' question and ordered the Health Inspectors to bring him samples of all the pomitos made in the different factories in this city. This is not where the danger lies. The cheap factories, doubtless, put in an inferior perfume to that used by Gosnell or Rimmel, but, for their own sakes, they would not use anything dangerous. It was blackguardism in fine clothes that, last year, used ink and other nameless liquids in pomitos, destroying many costly dresses; and we all know that one or two people lost their sight from what at the time was strongly suspected to be vitriol. Families are so nervous on this head that few will have the courage to venture into the Corso. The best way is for the Chief of Police to prohibit the use of pomitos this Carnival. If we must drench each other, the old cold water ruffianism was the least dangerous, and let us go back to it.

A French engineer has invented a machine for making 'real lace,' hitherto only made by the female hand He asks such a fabulous sum for his patents in England and France that even Bonanza Mackay of Nevada could not dream of paying it.

The Brazilian Minister, Baron Goudin, entertained his French colleague M. Rouvier on Friday evening, on his appointment to the French Legation in Rio. The French residents are very sorry to lose M. Rouvier, who is so deservedly popular.

The Emperor of Morroco has lost his head wife, but has still 199 left to console him.

An awful tragedy occurred in Calle Cuyo on Sunday morning at 4 o'clock. An unfaithful wife thought that her husband had gone to the camp, but, on returning from a masquerade ball with her paramour both were fatally stabbed by the injured husband, whose rural excursion was only a 'ruse.'

The Progreso Club will give its first Carnival ball on the 27th inst.

To-day the poor school at the Irish Convent reopens after the vacation; 140 poor children are taught by the Sisters of the Sacred Heart at this school: also 42 poor orphans are now clothed, fed, and educated at the same institution. And with great pleasure we announce that the High class school for young ladies will open on first March with over 50 pupils; these figures will show how this most excellent institution is thriving.

An employee in a business house in Calle Cangallo was arrested yesterday for forging a bill for $150,000 m|c.

One of our most fashionable brokers who arrived up from Montevideo was warmly congratulated by a host of friends on the near approach of a happy event which our poet countryman so very felicitously termed 'the greenest spot on memory's waste.'

A visitor to the picturesque Lomas informs us that a Lawn Tennis Club has been started there by some Athletic Anglo-Porteños. Strolling round the quintas these long summer mornings he has had occasion to see the game played to perfection, and what pleased him most was to see some Porteñas taking part in the game. The enterprise of these rising merchants is commendable in importing something besides Hoyle's prints and grey shirtings. Early rising and pleasant exercise are too little indulged in now-a-days.

On Saturday evening a meeting was held at the Rooms of the Horticultural Society with the object of reorganizing the General Brown Club. Proceedings were opened by Mr John Dillon being voted to the chair. After a few words of explanation by the chairman, regarding the purpose of the meeting, it was resolved that a committee be named to prepare a project for reforming several of the Rules of the Club, this to be submitted to a general meeting to be held shortly. An election then took place, the following gentlemen having a majority of votes:

President—John Dillon.
Secretary—E. D. Dewey.
Vocales—Alexander Junor, Charles Davis, J. B. Gahan, William Cook, Richard Eastman, David Suffern.

In the issue of Burke's Peerage for this year it is pointed out that the barony of Shute, conferred on Viscount Barrington, an Irish peer, leads to a peculiar state of things by reducing the number of peers of Ireland, exclusively such, to one hundred, at which point a clause in the Act of Union comes into operation by which the Crown is vested with power to keep up the peerage of Ireland to the number of one hundred over and above the number that are entitled by descent to a seat in the House of Lords.

Amongst the items of gossip in the *World*, just received, it is stated that an effort will be made to set aside the clause of the will of the Duchess of St. Albans by which the Baroness Burdett Coutts forfeits an immense sum of money by marrying an alien. The *World* also says that Lord Wicklow is spending the winter at Madeira, and it is feared even that fine climate will not restore him to health; and that the marriage between Lady Frances Conyngham and Mr Edward Fellowes will not take place,

It is reported in England that the Empress of Austria has taken Combermere Abbey, Cheshire, the seat of Viscount Combermere. Her Majesty will be accompanied by a very large retinue of servants and between twenty and forty persons. Combermere Abbey is about the most central position for the Cheshire, North Staffordshire, and North Shropshire Hounds.

MARTELL BRANDY—Imported by Moore and Tudor.

MARTELL BRANDY—The best of all the fine brands.

MARTELL BRANDY—Always of unvarying good quality.

MARTELL BRANDY—Guaranteed by our signature on the label pure spirits of the Cognac grape.

MARTELL BRANDY—Free from the noxious compounds found in the so-called 'Brandies' from other sources.

MARTELL BRANDY—Beware of falsifications and ordinary Brandies served out of old Martell bottles in second-rate "Confiterias."

The week has opened on a very dull gold market; the total sales of the day only amounted to 170,811 pats, which shows a pause in gold speculation, but the heat to-day was enough to make a pause in everything; many affirmed that it was the hottest day they ever experienced in B. Aires. Gold ruled steady all day, selling for cash at 29.25, and for end of April at 29.10. Cedulas also rule very steady at 89½, but National Bank Shares still rule speculative, prices gave way the least thing, opening at 77½ and closing at 77½, and for the end of the month opening at 77½, selling up to 77½ and closing at 77. Bonos Provinciales firm at ½ premium, and Empresitto Popular also firm at 98.

Capt. Manton's telephone was in full working order to-day in the office of the President at the Government House, and in his study at his private residence, Wanklyn quinta on Flores Road. The President did not come to town, but by means of the telephone the business of the State was easily despatched. Dean Monsignor Dillon, who called on the President at the Government House, had a telephonic conversation with H.E. on the subject of Irish emigration, and the Minister of War, and Finance also conversed with the President in the same manner; the success could really not be greater.

The Provincial Government of Santa Fe has paid off a part of its indebtedness to the Provincial Bank, Rosario—$f.140,000, which is always a good amount.

The R.M.S. Elbe sails to-morrow (Tuesday). Having but a few days ago published a packet edition, and there being no very important news to send home, we do not publish a packet edition for this steamer, but wait for the next mail.

The Correntino Government, under the able direction of Governor Gallino, is showing signs of earnest life. A bill has just been passed giving 30 leagues for the purpose of starting new sugar plantations and fomenting emigration to that province.

The German s.s. Hohenstauffen sailed on Sunday night a full ship.

The Guaviyu saladero began killing last week, yet we hear that fat cattle in the Banda Oriental are very scarce.

The cable is at last in complete working order, and messages of the day's date are now received here and in Europe.

Discount brokers report National Government acceptances, long date, done as low as 10 per cent per annum—2½,000 pats.

Merchants and others using watches may be interested in knowing that this week the Cabildo clock will be put up in its place. Custom has such an iron hold on us, that even to this day people pull out their watches to compare the time with the missing clock.

The following fresh statistics about Gualeguaychu we find in the *Telegrafo*. The figures show rather well for that rising town. The receipts for the year were—

	$f.
Custom House	22,795
Post Office	3,646
Telegraph	2,089
Imports	937,339
Exports	1,024,511

The sale of the drag Hercules in Montevideo has been suspended by order of the Court.

Messrs. Wissner and Chapeaurouge, in their wheat circular for last week, report the following arrivals of wheat—

By Western Railway	9682 fans.
" South. Railway and carts	2150 "
" Boca, Rosario &c.	61 "
	11,893 fans.

And 1525 bags flour. Wheat ruled very firm during the week, and arrivals from the colonies fell off, which led to an advance in prices. Large arrivals of linseed.

To-morrow (Tuesday) the auction of Mr Gibson's lands takes place at Messrs. Baltar and Quesada's—some 20 leagues of land in different lots and variously located. We call attention to one fine lot of wheat land, which lay 2½ years ago within 14 leagues of the Sta Fe colonies, and which, owing to the growth of the colonies, will now be much nearer these centres of agriculture. The valuations set on the lands are so very low that people might, if they hav the ready money, shut their eyes and buy them, certain to make splendid profit in the turn of a few years. We recommend capitalists to attend the sale.

A large holder of Tucuman sugar in this market has given orders to sell the stock on hand; we believe 30,000 ar., and the price we believe is 66 m/c.

The Tucuman sugar crop this year promises to eclipse everything. Mr Posse, who last year turned out of his sugar mills 105,000 ar., will this year make 200,000 ar. Nothing seems to grow faster in the Plate than our sugar industry.

Another unfavorable telegram from Antwerp was received to-day, it will be found in another column, its import is that wool has not yet touched bottom in Antwerp.

The Custom House Authorities notify merchants that all goods in the deposits since Dec. 31st, 1878, must be either despatched or deposit certificates renewed.

The report of Messrs Rodriguez, Sahores & Kley, the auditing committee of the National Bank, was given round to-day and confirms in everything the favorable position of the Bank; the committee only recommends a 3 per cent gold dividend to the shareholders; the bank notes in circulation on 31st December, 1880, amounted to $f.1,428,690 against 1,319,946 specie on hand and 286,588 specie notes, the committee considers that the issue might be enlarged. We hold the report for to-morrow.

At Mr Rom's land sale to-day about forty leagues were sold at an average of $24,500 per league.

The following sales of pine cargoes are reported in Montevideo—

Cargo James Kitchen and Maria Louisa Fernandina.
Etna, Equateur and Rome from Brunswick.
Ironside from Quebeck
Charles J. Rice, from Portland

These are the largest pine sales effected in one day that we recollect in the Plate. It seems pine is pine.

Telegrams from London give the Public Works Loan at 96½.

About 10,000 arrs. wool bought on Saturday in the barracas in Montevideo by a Buenos Ayrean barraquero who went down for the bathing.

At 4 o'clock to-day there was scarcely a soul on the Bolsa, and it was unnecessary to ring the bell, the force of custom or of the heat.

The sale of some Guaviyu hides at 70 re ported.

The Gironde landed her passengers on Flores Island and will be up in the morning; she made a splendid passage and brings dates to 23rd Jan.

The following are the killings—

	512,000	663,500

Exchange was very freely offered to-day and it looks as if advancing.

Very small arrivals of wool at the plaza Once this morning.

Pine, it seems, has risen in New York to 25 pats per mil. The sale of seven cargoes in Montevideo has astonished the market, 350,000 Spruce at 9½ and 50,000 Pine 10½, S B Hale sold by Mr Roberts some 20 days ago. Last week a cargo was sold by M Forrester & Co. at 11 rls.

Messrs Bankier and Jacobs, who have arrived up from Montevideo, were enveloped in friends, when they entered the hall, and the former warmly congratulated on the latest news from the Mount.

In shipbuilding circles the great talk was the chartering of the steamers for the Cape. The Dom Pedro and Hasburg are both withdrawn, the Yesso, we hear, is chartered for £1,600 stg. The Lucerne has not been offered. Several sailing vessels are spoken of as chartered at £5 10s per horse and mules in Montevideo loading at £8 10s. It seems that 4 or 5 steamers will be taken up, but some of the large steamers ask £10,000.

The Pascal entered port this morning with 1,600 tons cargo. The Pliny comes up to-morrow with 900 tons for here and 700 tons for Rosario; she will leave for there on Friday.

The Sales at afternoon were—

The following news about the Welsh colony is important:—

"Schooner Gwenlian to sail for Chubut on Wednesday with 16 passengers.

"Secretary of Comisaria del Chubut has received 188 titledeeds and full complement of official utiles.

"Mr Williams, one of the new colonists, is C.E., and has been introduced to the Department of Engineers by an influential member of Ministry of Interior.

"By last mail the colonists sent £300 testimonial to Prof. M D Jones, Bala, as token of respect for his efforts in furtherance of the colony.

"At Trerawson (the port of Chubut) they have a reading room where one can have a choice of two dozen periodicals in Welsh, English or Spanish."

Our Boca Correspondent gives the following:—

"The new Custom House is under weigh. The old mole with the innumerable holes is being torn up, and new fixtures being put down, so we are now looking forward to quite a fashionable promenade in the "dear old Boca".

"The Municipality of the locality seem also to be getting more wakeful, making extra drains, &c., and doing their best to keep the inhabitants from throwing their dirty water into the streets, jeopardising the cleanliness of passers-by.

"Theirs is, I am sorry to say a very hard task, as the greater part of the neighbours, not having been brought up amongst the cleanest of the clean, do not understand what such a word means.

"Our courteous tramway manager, Mr. Villafañe, with his usual forethought has now tramways running from Plaza Victoria to Barracas, via Rivera, every twenty minutes; a great improvement on the old half-hour system.

"I hear on good authority that the Tramway Co. at their own expense mean to plant trees all along the Vuelta de Rocha line "pro bono publico".

"People who have a share two hours to spend before sunset might do worse than step into one of the blue-flag Boca trams and make the round trip. They will see much to interest them on the route.

"Best red potatoes per ar $7 m/c. Place enveloped in peaches Bad quality this year."

Our latest Montevidean advices are as follows—

"The loss of cattle in the Department of Durazno during last year amounted to 80,000 head.

"Messrs C Luyman & Eberhard Reimer have entered into part co-ship with Messrs. Ungo & Co.; the firm will bear the name of the latter gentlemen.

"The Custom House dues last week amounted to a little short of $f.52,200.

"It is rumoured that Messrs Cibils have purchased the Bopicua factory.

"The Enrique, loaded with coal, foundered at Punta Espinillo en route for the Trinidad factory from Montevideo.

"The news from the Cosmopolita colony is most favorable; the colonists are in high spirits, owing to the splendid yield of wheat.

"Nine hundred inf novillos entered the Casa Blanca on Thursday.

"As usual the endemic paralyzation continues in the stock market; the many rumors respecting the Minister of Fina ce and his resignation intensified the dullness in the stocks Holders of stock await the solution of the Ministerial crisis.

"The following business was done in stocks:—

9,300	Titulos Adicionales, 28½
3,778	Titulos Especiales at 83⅝

"The following business was done in exports:—

1,000	dry hides for United States, reserved rates.
200	dry hides for Spain, do
10	bales horse hair, $18 per qq.

"The following clearance reported—

Engl. barque Sea King for Capetown with 110 mules and 140 bags potatoes."

B Aires, Feb. 14th, 1881

To the Editor of the *Standard*,

Dear Sir,

Unless they can justify the charge of commission on commission I beg to give it as my opinion that the answer to the commercial problem given by Messrs Altgelt & Eppen is slightly incorrect.

It seems to me that instead of 3 o/o they charge 3 9/97 o/o and 1 1/29 o/o instead of 1 o/o as follows:—

First amount	$f.12,000
Commission 5 o/o	600
	$f.11,400
Invested in wool	$f.11,058
Com. 3 9/97 o/o	342
	$f.11,400
Remittance of net proceeds of wool sold at purchasing price	$f.10,947.42
Com. 1 1/29 o/o	110.58
	$f11,058

Yours respectfully,
J. D.

Remataremos a la mas alta postura y sin limites de ninguna clase, los nombrados campos, conocidos por el Venado Tuerto, situados sobre la frontera de Buenos Aires y Santa Fe, distando nada mas que 60 leguas de la Capital 15 leguas de Rojas, 6 de la Teodelina (ie Alvear), 15 del Pergamino y 20 del Rosario.

Dista de las Estancias de los Sres. Gahan, Casey, Brown, Ham, Morgan y otros como 5 a 7 leguas.

Dichas estancias han costado cada una de $360,000, a $500,000 la legua, y se garante que sus pastos no son mejores que los campos que se venden.

El ramal del Ferro Carril del Oeste que va al Pergamino y estara concluido en 15 meses cuando mas, pondra estos campos a un dia de viaje de Buenos Aires.

Estos campos son verdaderamente espledindos y han sido visitados hace muy poco tiempo por un numero de hacendados y personas inteligentes que los reputan de primera calidad.

Hay muchas personas que creen que los campos virgenes o de pastos fuertes son de la misma calidad; es un gran error que ha costado mucho dinero a algunos poblad res.

Los campos al Sur de Venado Tuerto que lo forman los partidos de Lincoln, 9 de Julio, etc, son mas o menos arenosos llenos de medanos y nunca seran campos de primera calidad. Los al Norte no son a enos pero con campo muy duro y casi imposible de cultivar, mientras que os campos que se ofrecen en venta son de tierra negra, pastos inmejorables con grandes cañados, hermosas lagunas y lomas, sin medanos.

Son campos que admiten 2000 vacas y dos mil cabezas de ovejas por cada legua cuadrada y no son unicamente para cria de vacas, sino tambien para engorde.

Como tenemos orden terminante de vender todo el campo sin reserva alguna y siendo muy probable que por ser una area tan grande no se consiga la mitad del valor de estos campos, queremos llamar muy especialmente la atencion de los senores hacendados sobre su importancia.

Podemos asegurar desde ya, que la mayor parte de los compradores seran estancieros irlandeses y es sabido de todos que donde van esos pioneers de la ganaderia, los campos pronto duplican su valor.

Prueba de ello son los campos del Norte y Oeste de esta provincia, donde han pagado de 1½ a 2 millones por legua y todo el mundo decia que eran locuras; mientras tanto quienes son los hombres de fortuna en el pais?

Tenemos la firme conviccion que una vez que esten poblados estos campos y una parte alambrados, que lo sera antes de seis meses, no se podra comprar alli una legua por menos de 400,000 m/c.

Las condiciones de la venta son:

50,000 al contado y el resto a 1, 2 y 3 años de plazo con interes del Banco de la Provincia o con diez por ciento de descuento haciendo el pago al contado.

Se vendera en lotes de una legua con opcion a mas, al gusto de los compradores.

Los planos estaran a disposicion de los interesados, desde el 12 del corriente en nuestra casa Alsina no. 78.

NOTA IMPORTANTE—La venta se efectuara aqui en nuestra casa Alsina 78, despues de un esplendido lunch que ofrecemos a nuestros favorecedores y al efecto deberan munirse de la correspondiente tarjeta de admision, sin la cual no podra tener acceso al local del remate. Siendo limitado el numero de tarjetas [100] pedimos ocurran con tiempo por ellas.

LATEST FROM IRELAND.

Dublin, 14th Jan.

We extract from the *Freeman* the following latest news:—

We have received a telegram from Tralee stating that the executive of the local branch of the Land League there, viz.:—Messrs Harrington, Power, Kelly, Lyons and Brassil, have been arrested.

A Central News telegram says—A military commissioner of high rank has forwarded to the Government a report of his observations in Ireland, of which the following is a summary—He says no actual organised rising is to be feared at present, the precautionary measure of despatching extra forces having greatly lessened the probability of such an occurrence. If Government at once take strict measures for repressing lawlessness, a peaceful solution of difficulties and a cessation of outrages and disturbances may confidently be expected.

A Press Association telegram says—A serious encounter took place on Wednesday at a place called Newbrook, near Claremorris, between the police and the people. A process server was about to serve some ejectment notices, and, for his protection, was accompanied by a strong force of constabulary. The people cut a dyke across the road, and it was with difficulty the police managed to cross it. Upon appearing the process-server was received with groans, and as soon as the dyke was crossed stones were freely thrown. Owing to the menaces of the crowd the Riot Act was read, and the police having fixed their bayonets were ordered to charge. Four persons received wounds which are expected to be fatal. Several others are more or less injured.

The Westport Land League have supplied the Marquis of Sligo's steward (Mr Edbrook) with a number of servants, the old ones having left on receipt of threatening letters.

I hear that the Irish Land Committee, which, I take it, is the landlords' association in contradistinction to the League, are making arrangements for the republication of the speech of the Attorney-General for Ireland in pamphlet form for gratuitous distribution throughout England. I don't know anything about the legality of such an act while the case against the traversers is sub judice, but there can be no doubt as to its animus and bad taste. At the present rate of progression the Land League will not be enabled to retort with Mr Macdonogh's reply until long after the virus of the accusations has penetrated to the very marrow of the average Englishman.

Mr Boycott is at present staying with General Burnaby, M.P., at his seat in North Leicestershire. General Burnaby is the gallant gentleman who asked the Catholic bishops of Ireland for their opinion on the admissibility of Mr Bradlaugh into the House of Commons without taking the usual oath. His brother, Colonel Burnaby, of Khiva fame, is said to have stated at a dinner given to Captain Boycott last week that on the opening of Parliament a measure of indictment of Mr Gladstone would be proposed in Parliament, on account of his refusal to peremptorily suspend the Habeas Corpus Act in Ireland.

It is quite true that the Land Commissioners have not agreed on their report; and it is possible that there will be a rather sharp division, likely enough, three to two. One party will assuredly go for the three F's. I give you a forecast of what their recommendations are likely to be. The paragraph I note first is significant. The Commissioners state that it would not be desirable to stop freedom of contract, if such existed; but in the majority of cases freedom of contract does not exist between Irish landlords and tenants. They therefore recommend fixity of tenure, fair rents, and free sale. They adopt Mr Butt's plan for fixing rent—viz., one arbitrator appointed by each side, with power to appoint an umpire; failing the selection of an umpire, the Land Court to nominate one; the rent so fixed to remain unchanged for say thirty-one years. Tenant not to be disturbed, save for non-payment of rent, sub division, sub-letting, or waste. Tenant to have right of free sale in any way he pleases, subject to reasonable veto by landlord. All these provisions to apply to leaseholds not enjoying a lease, except where the farm had at commencement of lease been handed over to a new tenant in a fit state for cultivation, and with suitable buildings. No ordinary occupying tenant to have power to contract himself out of the act: non-occupiers, under certain conditions, to have that power. Faculties should be given to tenants to buy their farms when both parties agree for the sale, and all legal obstacles now standing in the way or otherwise should be removed. Annual payments not to exceed present rent. Amongst the most notable of the other recommendations is one enabling corporations and limited owners to sell to their tenants.

I heard last night on very good authority that the promised land bill will be disappointing in its details. A meeting of English Radicals and Scotch Whigs has been held, at which it was decided that if anything short of 'the three F's' was proposed they would oppose any measures of coercion to the bitter end, but they would throw in their lot blindly with the Government if they consider the project of reform satisfactory. The couple of hours which will elapse between the reading of the Queen's Speech and the resumption of the sitting of the House of Commons will be a busy term, which will decide the fate of the present Government.

Mr George Errington, M.P. for Longford, has written to the *Diritto* of Rome, the organ of the Cairoli Cabinet, to peremptorily deny the extravagant statement published in that paper that he had been sent to the Vatican by Lord Granville for the purpose of protesting against the she articles in the Catholic Press in favour of Irish land law reform. The foreign papers are so notorious for their—let us say exaggerations, that it would not be worth while alluding to the fact only that it has found its way to England.

Some light will be thrown on the practice of threatening-letter writing by the proceedings of a Land League meeting recently held in Westport. At this meeting Mr John Henry Edbrook, described as an employe of Lord John Browne's, presented himself and stated he had received two letters signed 'Rory,' threatening him with death, and that since that his servants had received threatening letters, and they all left his employment in consequence, so that he had not a single servant to work for him. Mr Edbrook, it was stated, is a gentleman of most inoffensive character, who has never interfered with politics one way or the other, and who has always lived on the most kindly terms with his neighbours. He was told that those threatening letters were the productions of the Land League, and he thought it right to come and lay the matter before the local committee at Westport. The members of the committee expressed themselves very grateful to Mr Edbrook for adopting this course. They repudiated all connection with such letters, and they passed a resolution condemning threatening letters as cowardly documents at all times, but monstrous when sent to such a man as Mr Edbrook. They passed a further resolution calling upon all Mr Edbrook's servants to return to their employment with the full sanction of the Land League. Several members spoke in the highest terms of the gentleman so shamefully treated, and denounced the letters as the outcome of personal spite, of the work of some cowardly ruffian. The result of the meeting was that Mr Edbrook's servants returned to their work, and he himself went away rejoicing, and thankful to the League. This episode speaks for itself. We have often given our opinion as to what the real nature of threatening letters was, on account of which nature there is a great difficulty in dealing with them and a great difficulty in finding out their authors. But if all honest recipients of such documents were to do as Mr Edbrook has done, we believe that their power of evil in all respects would be removed, and the character of a great body of the population of this country cleared in the eyes of people who are only too ready to believe anything that is said about it. Whether the documents be sham or genuine, this way of acting effectively squashes them. If Mr Edbrook's example be largely followed—which indeed we don't expect—he will have rendered nothing short of a national benefit.

DEATH OF THOMPSON RUSSELL ESQ. J.P.

(Died 22nd. December 1880.)

It is with much regret we announce the death of this venerable gentleman, which occurred last night, at his residence, Shelbourne, in the 80th year of his age, after a lengthened and active career as senior member of the great mercantile firm of John Norris Russell and Sons. He was second son of the late John Norris Russell—his late brother, Francis William Russell, who represented this city in Parliament for over twenty years, having been the eldest son—and on the demise of his father, at a patriarchal age, Mr Thompson Russell became the head of the firm, his elder brother's Parliamentary residence in London not enabling him to hold that position, and his close attention to business was such that he was scarcely ever known to enjoy a holiday or a trip to the seaside. He was the very embodiment of a merchant, laborious cautious, and calculating; and in times of great depression, when other great houses came crashing to the ground like an avalanche over a precipice, that of John Norris Russell and Sons always held its mighty head aloft, until to-day it enjoys a foremost place amongst the great mercantile firms in Ireland. Mr Thompson Russell, though holding so high a station in the mercantile world, was yet a homely gentleman, simple and unostentatious in his habits, and with an amiability of manner almost amounting to a weakness. He was affable with every one with whom he came in contact in a business way or otherwise; and his familiar face will long be regretted from the Harbour Board, Chamber of Commerce, and Market Trustees, whose meetings he regularly attended until failing health obliged him a few years ago to relieve himself both of the burden of the cares of his own establishment, and of attending on those boards. The deceased held the Commission of the Peace for the county of Limerick. His sole surviving brother, Mr Arthur Russell, has now become the senior member of the firm. It has not yet been decided when the funeral will take place, but the family vault is at St. John's.—*Limerick paper.*

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.
Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.
The Public, therefore, are cautioned against using any other than
Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.
CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.
Extracts from Medical Opinions.

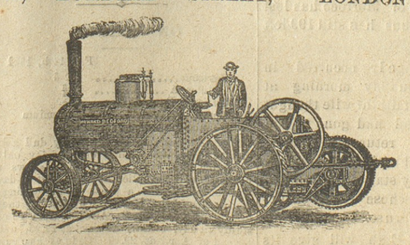

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.
From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.'
Dr. Lowe, Medical Missionary in India, reports (December 1866) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.
Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.'
See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.
CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.
In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.
Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.
There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.
The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.
TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, 30 guineas.
St. Mary's Preparatory School
In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened
Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.
The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.
The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.
